

# The Buckeye Leadership Fellows Program

*Sharp Focus, Wide Range*

Established in 2010 as the Office of Student Life's signature leadership development experience, the Buckeye Leadership Fellows Program provides transformative experiences which empower undergraduate students to challenge themselves to continuously improve, to identify their place within the world and to mindfully engage in their post-graduate pursuits. The experiential program exposes students to a range of public and private industries and encourages them to think differently about how to apply their skills in a practical way.
